Please do not hesitate to let me know if you see something that doesn't look right, errors and omissions will be corrected as quickly as possible. Collectively we can make the guides better!

Descriptions used in this guide may have been taken from radio station websites, Wikipedia and other sites as stated, with additional research using ChatGPT and Copilot.

Algeria

Enterprise Nationale de Radiodiffusion Sonore

The Enterprise Nationale de Radiodiffusion Sonore (ENRS, the National Sound Broadcasting Company, Algerian Radio, or Radio Algérienne) is Algeria's state-owned public radio broadcasting organisation. Formed in 1986 when the previous Algerian Radio and Television company (established in 1962) was split into four enterprises, it produces three national radio channels: Chaîne 1 in Arabic, Chaîne 2 in Berber and Chaîne 3 in French. There are also two thematic channels (Radio Culture and Radio Coran), one international station and many local stations.

Radio Algérienne Chaîne 1

Chaîne 1 is the main Arabic language service of Radio Algérienne. Its programming consists of news, information and sport. It currently operates around the clock on two mediumwave transmitters on 909 kHz (10 kW) and 1071 kHz (5 kW). Chaîne 1 news is also relayed by many local stations throughout the day and overnight.

Radio Algérienne Chaîne 2

Chaîne 2 is the Tamazight (Berber) language service of Radio Algérienne. it can be heard on 981 kHz

Radio Algérienne Chaîne 3

Chaîne 3 is the French language service of Radio Algérienne. Its main frequency is longwave 252 kHz but may be relayed by local stations on mediumwave at certain times.

Radio UFC / Radio Culture / Radio Coran

Radio UFC, Radio Culture and Radio Coran are three thematic services of Radio Algérienne. They broadcast mainly on FM, with Radio Coran aired overnight between 2300-0600 on most local mediumwave stations. Other services from Radio Algérienne may also be rebroadcast at various times.

Jil FM

Jil FM, or "Generation FM", is the country's first youth-oriented station. Its main frequency is 94.7 FM but it also broadcasts on 549 kHz mediumwave (on 19 February 2021, Jil FM on 531 kHz, 600 kW, switched to carrying Radio Algérie Internationale). Jil FM programmes are mainly in Arabic, but also has content in French and Tamazight.

Radio Algérienne local radio stations

Local stations generally have their own programmes between 0800-1900 and may relay one of the national channels or Radio Algérie International during the evening. Many stations carry Radio Coran between 2300-0600. The main news bulletins in Arabic from Chaîne 1 may also be aired at 0600, 1200, 1800 and 2200 UTC.

Radio Algeria International

Radio Algeria International was launched on 19 March 2007. Broadcasting in four languages, namely Arabic, French, English and Spanish, 24 hours a day, 7 days a week, it focuses its programmes on topical national and international news, and the English segment at least also has a daily feature programme. Radio Algeria International is aired on three MW transmitters in Algeria and may also be carried on local stations at certain times.

Time/UTC	Days	Languages	kHz	Location	kW
24 hours	Daily	Arabic, French, English and Spanish	531	F'kirina Wilaya	600

Angola

Rádio Nacional de Angola

RNA is the official state-operated radio station with headquarters in Luanda. RNA operates five radio stations in the capital (Canal A, Rádio N'Gola Yetu, Rádio Luanda, Rádio Estéreo FM, Rádio 5), eighteen regional stations (one per province) and an international radio station (International Service)

RNA Canal A

Canal A is the national service of RNA, broadcasting exclusively in Portuguese throughout Angola on a network of FM transmitters. It has also been reported on mediumwave (recently reported as 1135.3 kHz), but the shortwave transmitter (4950v kHz) is now inactive. It airs two comprehensive news bulletins at 1300 and 2000 local time (1200 and 1900 UTC).

Schedule: presumably 24 hours in Portuguese

kHz	Transmitter site	kW
1135.3	Mulenvos, Luanda	25

Rádio N'gola Yetu or RNA International Channel?

The service on 945 kHz from Angola is subject to confirmation. Some reports indicate it is Rádio N'gola Yetu, which broadcasts in the 14 national languages of Angola, whilst others indicate RNA's International Channel with programmes around the clock in Portuguese, English, French and Lingala. The two services had in the past shared airtime on this mediumwave transmitter (see below), but observations in the past 2-3 years seemed to indicate either one or the other.

Schedule: presumably 24 hours

kHz	Transmitter site	kW
945	Mulenvos, Luanda	25

The RNA website continues to show "Canal Internacional" between 2100-0000 (which would be 2000-2300 UTC), with Rádio N'gola Yetu at all other times, although it is unclear if this relates to 945 kHz, or if the information is up-to-date.

RNA provincial radio stations on mediumwave

The two most recent stations believed to be operating on mediumwave were Emissora Provincial do Zaire (Rádio Zaire), Soyo, on 1290 kHz and Emissora Provincial do Moxico (Rádio Moxico), Luena, on 1458 kHz, but it is unclear if they are still operating on mediumwave. The Facebook pages of both stations only refer to FM frequencies.

All other provincial radio stations that had operated on MW and/or SW in the past moved to FM several years ago.

Ascension Island

There are no mediumwave stations currently on air on Ascension Island. BBC Radio Ascension on 1485 kHz and Volcano Radio on 1602 had both switched off their mediumwave transmitters by the end of 2009.

Benin

TWR West Africa Transmitter Station (WATS)

TWR's West Africa Transmitting Station went on air on 1 February 2008 and now broadcasts Christian programming to West Africa on two mediumwave transmitters. The original transmitter at Parakou on 1566 kHz (100 kW) covers a large portion of West Africa. The second transmitter on 1476 kHz (200 kW) was inaugurated on 1 February 2020 for broadcasts to Nigeria, as well as parts of the neighboring countries of Cameroon, Benin and Niger. Programmes are in six languages widely spoken across the region: Yoruba, Igbo, Fulani, Hausa, Kanuri and African English,

At that time it relayed the Voice of America with programming mostly focused on the Horn of Africa region in Amharic, Oromo, Tigrinya and Somali.

Egypt

National Media Authority

The National Media Authority (NMA) manages the State-owned media in Egypt. It replaced the Egyptian Radio and Television Union (ERTU) established in 1954. The National Media Authority was created in 2014 after the Ministry of Information was abolished and with the proclamation of the new Egyptian Constitution, establishing independent bodies to manage state-owned media in a move to create a public service media sector. The NMA manages State Television, which includes a number of Egyptian ground and satellite channels, State Radio and Nile Radio.

Mediumwave radio stations in Egypt

All stations are part of the National Media Authority, Egyptian Radio.

Times of operation have been omitted as they cannot be confirmed (other sources may offer a more accurate indication)

Voice of the Arabs

Rihards Millers has been monitoring Voice of the Arabs on 621 kHz and they were last confirmed on-air in mid-September 2025, although further checks are required. They had previously been observed from 0800v to 1200v with the transmitter switched on just before 0800 and closing around 1200, although this varied slightly each day.

Equatorial Guinea

Radio Nacional de Guinea Ecuatorial

Radio Nacional de Guinea Ecuatorial (RNGE) is the national broadcaster of Equatorial Guinea. Radio Bata is the RNGE station located on mainland Rio Muni and Radio Malabo is a RTVGE station located on Bioko Island. There are no mediumwave stations on air in Equatorial Guinea.

Eritrea

Eritrean Radio - Voice of the Broad Masses of Eritrea (Dimtsi Hafash)

Dimtsi Hafash is state run and operates two networks with programmes in several languages. Prior to the defeat of the Mengistu regime in Ethiopia in 1991, it had operated as a clandestine radio station supporting the Eritrean People's Liberation Front and other opposition groups.

Eritrean Radio - Programme 1

Languages used for Programme 1 are believed to include Tigrinya, Tigre and Kunama.

Ethiopia

Ethiopian Broadcasting Corporation

The Ethiopian Broadcasting Corporation (Radio Ethiopia) is the state broadcasting service in Ethiopia. In 2015 the EBC authority was established to regulate all broadcasting in the country (radio and television) and to promote the culture and history of the nations, nationalities and people of Ethiopia.

Radio Ethiopia National Service

Radio Ethiopia National Service is the country's official national broadcaster, operated by the Ethiopian Broadcasting Corporation (EBC). Although a recent programme schedule cannot be found, it is likely that most programmes will be in the main languages in Ethiopia: Amharic, Oromo, Somali, and Tigrinya. Regional programmes may be heard until 1700 and include other languages.

Schedule: 0245-2000/2100 but some transmitters may be on air 24 hours

kHz	Transmitter site	kW
684	Metu, Oromiya	100
828	Arba Minch, SNNPR	100

Amhara Regional State Radio

Amhara Regional State Radio is the public broadcaster of the Amhara Region, based in Bahir Dar. It operates under the Amhara Media Corporation (AMECO) and broadcasts mainly in Amharic, with some programming in other Ethiopian languages. Amhara State Regional Radio also operates on shortwave 6090 kHz.

Schedule: 0255-2100 (possibly with breaks) in Amharic and other Ethiopian languages

kHz	Transmitter site	kW
801	Bahir Dar, Amhara	100

Fana Broadcasting Corporate S.C.

Radio Fana (Fana is Amharic for "Torch"), now known as Fana Broadcasting Corporate S.C., was originally operated by the Ethiopian People's Revolutionary Democratic Front (EPRDF, the ruling coalition). It is now said to be a private news media company, focusing mostly on political, social and economic issues within Ethiopia. Programmes are mainly in Amharic with limited Oromo, Somali and Afar. Radio Fana also operates on shortwave 6110 kHz

Schedule: 0255-2100 in Amharic and other Ethiopian languages

kHz	Transmitter site	kW
1080	Addis Ababa	3

Gimbi Educational Radio

Little is known at the time of editing as to the background of Gimbi Educational Radio. The most recent report appears to be from Stefan Schliephacke whilst in Uganda in 2019.

Schedule: unconfirmed, but sign-off believed to be at 2000v.

kHz	Transmitter site	kW
1215	Gimbi, Oromiyya	10

Oromia Regional Education Bureau

Programmes from the Oromia Regional Education Bureau are broadcast during the daytime on 630 kHz. Historical information suggests that educational-radio projects in Ethiopia began to develop more in the early 2000's, and the recent reception of OEB broadcasts on mediumwave using an online SDR in Addis Ababa confirms that they continue to this day. Some references are being made to the name "Lege Dadi Education Radio".

Schedule: unconfirmed, but appears to be daytime only (around 0500-1400 UTC)

kHz	Transmitter site
630	Addis Ababa

Ron Howard commented on the World of Radio IO Group on 23 October 2025: "630 kHz., Lege Dadi Education Radio, 0530+ UT, Oct 23 (Thursday - a school day), via Kiwi SDR remote at Addis Ababa; I often check on this station and is very unusual to hear cool jazz here, rather than the normal Horn-of-Africa music; teaching in Amharic with a lesson about organizing and writing an essay (Google audio translation, which was not very good, as it continually stopped after a brief translation. Here are some random portions - "This includes the main ideas that should be included in our essay before we write . . . They are a contribution that includes their main ideas and conclusions ... The following are the characteristics of student patience: The first formal essay or bibliography is known as this type of essay, and it is written for the subject we want to study ... What is called a summary that contains the main ideas that should be included in our essay before we start writing ..."). Always heard with good reception. (Ron Howard, WOR iog)

Radio Oromiya

Radio Oromiya (OBN Radio) is the official public broadcaster of the Oromia Region in Ethiopia. It is part of the Oromia Broadcasting Network (OBN), headquartered in Addis Ababa (Finfinne), and broadcasts in Afaan Oromo, Amharic, and Somali. It also operates on shortwave 6030 kHz.

Schedule: 0255-2000 (possibly with breaks) in Oromo, Amharic and Somali.

837	Robe, Oromiya	100
1035	Adama, Oromiya	10
1053	Nekemte, Oromiya	100

Radio Sidama

Radio Sidama was established as a community radio station serving the people of the Sidama area. It began around 1997 in the town of Yirgalem, near Hawassa, through the efforts of the Sidama Development Programme, with support from an overseas donor, Irish Aid. According to historical sources, Radio Sidama uses a mediumwave transmitter on 954 kHz with a 2.5 kW transmitter, covering roughly a 188 km radius, enough to reach across the entire Sidama area and some of the neighbouring zones, like parts of Wolayita, Gedeo, and even parts of Oromiya region.

Schedule: unconfirmed.

Whilst on a visit to Ethiopia in early March 2025, Harald Süß was able to hear the SRTC stations on 666 and 963 kHz. (as per Harald's comprehensive log in Medium Wave Logbook, British DX Club's "Communication", April 2025)

From László Tringer on 10 November 2025 via <https://mediumwave.info/2025/11/>

I did some research regarding Sudanese MW on a KiwiSDR in Addis Ababa, Ethiopia. All listed sudanese transmitters seemed to be off air, but on 1602 kHz I heard South Kordufan State Radio in vernacular language (highly presumed!) with acceptable signal. Here is the recording: <https://voca.ro/1m5POiela5wN> the station suddenly went off air in the middle of an african style song at 1917 UTC.

At 540 kHz I heard a wobbling carrier under the mix of Radio Kossuth and Radio Kuwait: <https://voca.ro/1aHTbWOZwJ4Z> According this article Radio Nyala (official name: South Darfur State Radio) was re-launched in late 2024 under the affiliation of Rapid Support Forces, but this mentions only 98 FM. <https://www.darfur24.com/en/2024/12/27/nyala-radio-resumes-after-more-than-a-year-and-a-half/>. Nyala Radio is listed on 540 kHz too, but no source about its state. But I read somewhere several years ago that Radio Nyala had a distorted, unstable signal on 540 kHz, so according to this maybe it is active.

South Sudan

South Sudan Broadcasting Corporation

The South Sudan government operates a loosely coordinated network of local radio stations across the country under the umbrella of South Sudan Broadcasting Corporation. These stations broadcast on FM and can only be heard within the vicinity of the town where they are based. Each station in the network produces and broadcasts its own programming. Radio Juba is the flagship station of the SSBC network, but has not been reported on its mediumwave frequency of 693 kHz for a few years now. There are no other mediumwave stations on air in South Sudan.

Tanzania

Tanzania Broadcasting Corporation - TBC Taifa

TBC is the state broadcaster in Tanzania. Most mediumwave transmitters are now inactive with only 621 and 711 kHz having been reported recently.

Schedule: irregular - 0155v-2100v in Swahili
