British DX Club

North America on Shortwave

Compiled and edited by Tony Rogers

Email: dxguides@gmail.com

Updated: 1 December 2025

This guide has been prepared using information from fellow DXers and shortwave listeners, station schedules, HFCC data, online groups (such as British DX Club and World of Radio IO Groups), DX club magazines, and the very useful EiBi and Aoki databases.

Acknowledgements, latest news and other information can be found at <https://www.dxguides.info/>

Please do not hesitate to let me know if you see something that doesn't look right, errors and omissions will be corrected as quickly as possible. Collectively we can make the guides better!

Descriptions used in this guide may have been taken from radio station websites, Wikipedia and other sites as stated, with additional research using ChatGPT and Copilot.

Alaska

KNLS International

KNLS International is an international shortwave radio station near Anchor Point, Alaska. The station is operated by World Christian Broadcasting, a non-profit company based in the United States. KNLS broadcasts in English, Chinese, Korean and Russian to East Asia and the Russian Far East.

Transmitter site: Anchor Point, Kenai Peninsula

KSKO McGrath AK

KSKO-FM is a non-commercial NPR affiliate radio station in McGrath, Alaska, broadcasting on 89.5 FM and several FM repeaters. The station began broadcasting on 1 July 1981, initially on a frequency of 870 kHz on the AM dial. Station owners Kuskokwin Public Broadcasting Corporation switched from AM to FM in 2015. A one hour relay of the afternoon show from KSKO, presented by Paul Walker, was broadcast on Fridays via a shortwave transmitter in Bulgaria but has been discontinued. Paul Walker says that now the Overcomer broadcasts via Spaceline on 5900 kHz have ceased, the KSKO relay on that frequency is also finished. Paul says that "the generous benefactor who pays for the airtime got such a bargain basement rate because the transmitter was already in use and it was easy to sandwich us in between Stair. It is genuinely hoped we can make this continue". (Paul Walker/Alan Roe - BDXC-UK IO Group, 8 August 2025)

Canada

CFRX Toronto ON

CFRX is the shortwave relay of CFRB (Newstalk 1010), the news/talk radio station in Toronto, Ontario. CFRX signed on the air on 11 February 1937, 10 years after CFRB began.

International broadcasting from Canadian-based stations

Bible Voice Broadcasting

From the High Adventure Gospel Communication Ministries Canada website: "In 1979 High Adventure began as a ministry dedicated to the installation and operation of a strategic radio station in and for the Middle East. The Voice of Hope enjoyed support from the Christian community across the world as its daily multi language broadcasts reached into hearts and homes in 32 countries from its Medium and Shortwave radio transmitters in South Lebanon. From the beginning, High Adventure Canada enjoyed the help of individuals to support this strategic radio ministry that eventually grew into a global shortwave radio broadcast system. In 2000, a ministry restructuring process brought about change that led to growth and focus. High Adventure Canada widened its shortwave reach, utilizing larger and more strategically located transmitters that expanded its coverage airing programming under its Bible Voice Broadcast signature".

Tony Pavick, Pop Shop Radio (schedule updated 20 November 2025)

United States of America

United States Agency for Global Media (USAGM)

The United States Agency for Global Media (USAGM), known as the Broadcasting Board of Governors (BBG) from 1994 to 2018, is an independent agency of the United States government that broadcasts news and information for regions of the world with the lowest levels of press freedom. The USAGM supervises Voice of America (VOA) and Office of Cuba Broadcasting, as well as the previously state-funded Radio Free Europe/Radio Liberty, Radio Free Asia, Middle East Broadcasting Networks and Open Technology Fund.

On 14 March 2025, President Donald Trump issued an executive order that directed that the USAGM be eliminated "to the maximum extent consistent with applicable law", along with several other agencies. Between March and July 2025, 85% of the staff at USAGM and its subsidiaries were eliminated, leaving only 250 employees across the USAGM, VOA and the Office of Cuba Broadcasting. Only the OCB's complement of 33 employees has remained intact. Most services were immediately discontinued, with just a few resuming and these are detailed below. Please see the Wikipedia entry at https://en.wikipedia.org/wiki/U.S._Agency_for_Global_Media for further details and links to other websites.

Voice of America

Voice of America (VOA) is an international broadcaster funded by the United States federal government and established in 1942. It is the largest and oldest of the USA's existing international broadcasters, producing digital, TV, and radio content in 48 languages for affiliate stations around the world. Its targeted and primary audience is non-Americans outside the American borders, especially those living in countries without press freedom or independent journalism.

Under the first Trump administration, leadership at the agency was replaced with Trump allies and there were several allegations, both internal and external, of interference in hiring and coverage to be loyal to Trump. In his second administration, Trump signed an executive order cutting funding to the USAGM. On 14 March 2025, almost all of VOA's 1,300 journalists, producers and assistants were placed on administrative leave. The next day, many VOA foreign language broadcasts replaced news and other regularly scheduled programming with music and the VOA website ceased being updated. On 20 June 2025, layoff notices were sent to 639 VOA employees, completing an 85% reduction in staff at the U.S. Agency for Global Media since the beginning of Trump's second term, and effectively shutting down the service. Of the entire USAGM, 250 employees remain in staff, close to the statutory minimum, with approximately 200 of those at VOA.

Radio Free Europe / Radio Liberty

Radio Free Europe/Radio Liberty (RFE/RL) is an American state-funded media organisation that broadcast news and analyses in 27 languages to 23 countries across Eastern Europe, Central Asia, the Caucasus, and the Middle East. Headquartered in Prague since 1995, RFE/RL operates 21 local bureaus with over 500 core staff. Founded during the Cold War, RFE began in 1949 targeting Soviet satellite states, while RL, established in 1951, focused on the Soviet Union. Initially funded covertly by the CIA until 1972, the two merged in 1976. RFE/RL was headquartered in Munich from 1949 to 1995, with additional broadcasts from Portugal's Glória do Ribatejo until 1996. Soviet authorities jammed their signals, and communist regimes often infiltrated their operations. RFE/RL is a private 501(c)(3) corporation supervised by the United States Agency for Global Media, which oversees all government-supported international broadcasting. Since the Revolutions of 1989 and the Soviet Union's dissolution, the organization's European presence has been reduced.

On 15 March 2025, the United States Agency for Global Media terminated grants to RFE/RL and Radio Free Asia following a directive from the Trump administration. On 18 March, RFE/RL sued USAGM and two USAGM officials to block the grant termination. On 22 March 2025, the Czech government pledged to support RFE/RL following funding cuts by the U.S. administration under President Donald Trump. In May 2025, Kaja Kallas stated that the EU would provide US\$6.2 million to RFE/RL and Sweden pledged US\$2 million.

Radio Svoboda

One programme from RFE/RL currently remains on air, thanks to a broadcast by WRMI-Radio Miami International, which originates from Radio Liberty's Russian online stream:

UTC	Days	Language	kHz	Transmitter site	kW	Target area
0400-0500	Mon-Fri	Russian	15770	WRMI Okeechobee, Florida	100	Eastern Europe

Note: programme may be replaced on some days by music instead.

Radio Svoboda in Russian is also aired on mediumwave 1368 kHz from Lithuania between 0530-0830 daily.

USAGM target broadcasts on shortwave to Afghanistan and Pakistan

Until March 2025, VOA and RFE/RL had several broadcasts directed to Afghanistan and Pakistan on shortwave:

- VOA Pashto and VOA Dari (also known as Radio Ashna).
- Deewa (Light) Radio is a Voice of America service in Pashto for the Afghanistan-Pakistan border region.
- Radio Free Afghanistan (Radio Azadi) is the Afghan service of Radio Free Europe/Radio Liberty.
- Radio Mashaal ("Mashaal" meaning "Torch" in Pashto) broadcasts in local Pashto dialects to Pakistan and the border regions between Afghanistan and Pakistan.

At present Voice of America Dari and Voice of America Pashto are the two services to Afghanistan that can still be heard on shortwave. After all broadcasts to Afghanistan on shortwave went off air in March 2025, VOA returned between June and the end of September 2025 with a service on one mediumwave and one shortwave frequency with programming on weekdays for 15 minutes each in Pashto and Dari. It returned again in mid-November 2025 on a single shortwave frequency with world news bulletins as follows:

Time/UTC	Days	Service	kHz	Transmitter site	kW
1630-1645	Mon-Fri	VOA Dari	11575	Umm al-Rimam, Kuwait	250
1645-1700	Mon-Fri	VOA Pashto	11575	Umm al-Rimam, Kuwait	250

Radio Martí

Radio y Televisión Martí is an American state-run radio and television international broadcaster based in Miami, Florida, financed by the federal government of the United States through the U.S. Agency for Global Media (formerly Broadcasting Board of Governors, BBG). It transmits its programmes in Spanish to Cuba and its broadcasts can also be heard and viewed worldwide through their website and on shortwave radio frequencies. Named after the Cuban national hero and intellectual José Martí, Radio Televisión Martí was established in 1983 and TV Martí was added in 1990. These are the current frequencies registered with the HFCC for B25:

kHz	Time/UTC
5980	1100-1400
6030	0100-1100
7355	0300-1200 and 2300-0000
7365	0100-0300
7435	0000-1100 and 1300-1500
9410	1100-1500
9565	2100-0100
11860	1400-2300
11930	1400-0100
13820	1500-2200
15330	1600-2100
15380	1600-2200

Note: Radio Martí also broadcasts 24/7 on 1180 kHz AM from a transmitter at Marathon FL.

Radio Farda

Radio Farda ("Radio Tomorrow") is the Iranian branch of the U.S. government-funded Radio Free Europe/Radio Liberty (RFE/RL) external broadcast service for providing "factual, objective and professional journalism" to its audiences. It had broadcast 24 hours a day in the Persian language from its headquarters in the district Hagibor of Prague, Czech Republic. Radio Farda first aired in December 2002. It broadcasts news on topics such as political, cultural, social, and art with an emphasis on Iran. Radio Farda's broadcasts have been continually blocked by Iranian authorities over the history of its programming. On 15 March 2025, the United States Agency for Global Media terminated grants to Radio Free Europe/Radio Liberty and its subsidiaries following a directive from the Trump Administration. All staff were put on administrative leave and programming has largely or entirely been suspended. In June 2025, Radio Farda did resume broadcasting on shortwave, seemingly being funded by non-USAGM means. These broadcasts lasted until September 2025 when they were no longer heard. The broadcasts between June and September 2025 were via Dhabbaya, UAE and Woofferton, UK, both non-USAGM transmitter sites.

Radio Free Asia

Radio Free Asia (RFA) is an American state-funded news service that published online news, information, commentary and broadcast radio programmes for its audiences in Asia. The service, which provided editorially independent reporting, had the stated mission of providing accurate and uncensored reporting to countries in Asia that have poor media environments and limited protections for speech and press freedom. RFA operated as a non-profit corporation, headquartered in Washington, D.C., with news bureaus and journalists in Asia, Europe, and Australia. RFA was established by the US International Broadcasting Act of 1994 with the stated aim of "promoting democratic values and human rights", and countering the narratives and monopoly on information distribution of the Chinese Communist Party, as well as providing media reports about the North Korean government. It has historically been funded and supervised by the U.S. Agency for Global Media (formerly Broadcasting Board of Governors), an independent agency of the United States government. On 15 March 2025, the United States Agency for Global Media terminated grants to Radio Free Europe/Radio Liberty and Radio Free Asia following a directive from the Trump administration. The news service and its staff have defied the executive order and remained on the air while considering legal action to challenge the presidential directive. Since the announcement, RFA's Tibetan, Burmese, Korean, Lao, Cantonese, Khmer and Uyghur language services have shut down. Its news operations were suspended on 31 October 2025.

International Broadcasting Bureau Greenville Transmitting Station

The International Broadcasting Bureau Greenville Transmitting Station is located in Greenville, North Carolina. It is also known as the Edward R. Murrow Transmitting Station or Voice of America Greenville Transmitting Station.

On 16 March 2025 the station's transmitters were shutdown. The stations using them at the time were Voice of America (Portuguese and French to Africa), Radio Martí (Spanish to Cuba), KBS World Radio (Spanish to South America) and Vatican Radio (Spanish and Portuguese to Central & South America). However, in late June 2025, Radio Martí returned to the airwaves from Greenville and is believed to be the only station currently being broadcast from the site. Please see the Radio Martí schedule above.

Other Shortwave Service

Global Talk America (GTA) - Hausa

From the GTA Hausa website: "GTA Hausa is a news website that provides reporting in the Hausa language from the United States to other parts of the world. GTA Hausa was established to bring accurate information, factual research, and meaningful reporting to the Hausa community everywhere. Our goal is to provide news in a quality manner, in writing, video, and audio, while adhering to the principles of journalism of truth, integrity, and fairness ... GTA Hausa is hosted from the United States of America in collaboration with journalists and reporters in Nigeria, Niger, and other parts of the world. This integration allows us to bring you news from a solid source while being close to what is happening directly". Further details and a programme archive can be found at <https://gtahausa.com/>

GTA Hausa commenced shortwave broadcasts in November 2025 with the following schedule:

UTC	Days	Language	kHz	Transmitter site	kW	Target area
0500-0530	Daily	Hausa	6170	Ascension Island	250	West Africa
2030-2100	Daily	Hausa	9765	Woofferton, UK	250	West Africa

It is assumed that this is a spin-off from the VOA Hausa service that was discontinued on shortwave in March 2025 and content is likely to be provided by correspondents that were previously connected. The background is not known for certain at the time of editing and any incorrect details in this entry will be amended as necessary.

Private U.S. Shortwave Stations

WBCQ - The Planet

Owner: Allan H. Weiner

Transmitter site: Monticello, Maine.

WBCQ is owned and operated by Allan Weiner, who also owns and operates WXME AM 780 kHz and WBCQ-FM 94.7 MHz at the shortwave site. The station airs talk shows and other programmes produced by commercial networks as well as former pirate radio broadcasters.

kHz	Days	Times/UTC	Note
5130	Sun/Mon	0000-0400	
6160	Daily	24 hours	Radio Angela (resumed 24/7 operation on 1 November 2025)
7490	Daily	1700-0500	
9330	Daily	24 hours	with programming from WLC Radio, see schedule below

Note: all days and times of operation are subject to confirmation.

Details of WBCQ programming can be found at: <http://wbcq.com/schedule/>

WEWN - EWTN Global Catholic Network

Owner: Eternal Word Television Network

Transmitter site: Vandiver, Alabama.

WEWN is the shortwave outlet of the EWTN, a large Catholic international broadcaster, launched on 28 December 1992.

Time/UTC	Days	Language	kHz	kW	Target area	Status
1400-0600	Daily	Spanish	12050	100	Latin America	
1900-0600	Daily	English	15610	250	SE Asia, Africa, Middle East, India	currently off-air

Note: times and frequencies as per EWTN website at <https://www.ewtn.com/radio>.

WEWN is currently off-air on 15610 kHz due to a long-standing transmitter fault.

WINB Shortwave

Owner: World International Broadcasters, Inc.

Transmitter site: Red Lion, Pennsylvania.

WINB is a brokered Christian shortwave radio station that began broadcasting in October 1962, making it the oldest private shortwave radio station in the United States that is still in operation.

Time/UTC	Days	Language	kHz	kW	Target area
1000-1700	Sat/Sun	English	9265	50	North & Central America, Caribbean
1700-0700	Daily	English	9265	50	North & Central America, Caribbean

Note: times will be one hour later from 2 November 2025.

Some programmes may be in Spanish; further details can be found on their website at <https://www.winb.com/>

WJHR Radio International

Owner: Brother Scott Mock (Hill Radio International)

Transmitter site: Milton, Florida.

From the website of the True Gospel Independent Baptist Church (<http://mytgibc.com/Missions.php>): "WJHR Radio is a short wave radio station that broadcasts the gospel of Jesus Christ around the world. WJHR broadcasts nothing but preaching 24 hours a day 7 days a week. The station was built and is maintained by Brother Scott Mock who is a faithful member of True Gospel Baptist for many years ...". The shortwave transmitter is registered at 50 kW but likely to be much lower power, probably using amateur radio equipment.

Time/UTC	Days	Language	kHz	Target area	Note
1400-2200	irregular	English	15555-usb	North America	frequency may sometimes fall to nearer 15550 kHz

WMLK Radio

Owner: Assemblies of Yahweh

Transmitter site: Bethel, Pennsylvania.

WMLK takes its name from MLK, representing the consonants of the Hebrew word "malak", meaning a "messenger" or angel. WMLK Radio had been off air since a fire in 2017 but returned in June 2022.

Time/UTC	Days	Language	kHz	kW	Target area
1200-1700	Sun-Fri	English	15150	300	Europe, Middle East (CIRAF 27,28,39)
1730-2230	Sun-Fri	English	17525	300	Europe, Middle East (CIRAF 27,28,39)
2300-0400	Sun-Fri	English	9275	300	Europe, Middle East (CIRAF 27,28,39)

WMLK had in the past been heard in DRM mode on 9275 kHz for a short while around 2258-2300.

Further information about WMLK can be found on their website at <https://wmlkradio.com/>

WRMI - Radio Miami International

Owner: Radio Miami International, Inc. (Jeff White, co-founder/GM)

Transmitter site: Okeechobee, Florida.

WRMI (Radio Miami International) is a commercial radio station that sells airtime to businesses and organisations.

The latest news about WRMI can be found on their Facebook page at <https://www.facebook.com/wrmiradio>

Transmitter #	Frequency, beam and general target area	times of operation
Transmitter 1	not on air	
Transmitter 2	7730 kHz (044° - Eastern North America)	24/7
Transmitter 3	9955 kHz (160° - South America)	1200-1600 2200-0500
Transmitter 4	5050 kHz (160° - Latin America)	0000-0500
Transmitter 5	7570 kHz (285° - Western North America)	0100-1100
Transmitter 6	9395 kHz (355° - North America)	24/7
Transmitter 7	17790 kHz (160° - Latin America)	1500-0200
Transmitter 8	5950 kHz (355° - North America)	0000-0500
Transmitter 9	15770 kHz (044° - Europe)	24/7
Transmitter 10	5800 kHz (160° - Latin America)	0100-0400
Transmitter 11	9455 kHz (315° - North America)	2300-0400
Transmitter 12	5850 kHz (315° - North America)	2200-1300
Transmitter 13	7780 kHz (222° - Central America)	0000-1200
Transmitter 14	5010 kHz (181° - Caribbean)	2300-0300

The official WRMI schedule effective from 2 November 2025 can be found on their website at <https://www.wrmi.net/>

An unofficial guide to WRMI times, frequencies and programmes compiled by Tony Rogers for DX Guides is available at <https://www.dxguides.info/p/sw.html>. This is based on the official WRMI schedule effective 2 November 2025 for the B25 season and lists programmes in time order throughout the week for each frequency. It also includes the schedule for the World Radio Network that is re-broadcast by WRMI at various times. The intention is to update the guide as frequently as possible with any changes that WRMI may announce on their Facebook page and on observations made by DXers and SWL's.

WRNO Worldwide

Owner: Robert Mawire Ministries

Transmitter site: New Orleans, Louisiana.

WRNO (also known as WRNO Worldwide) is a commercial shortwave radio station which began international broadcasting on 18 February 1982 and continued regular broadcasting through the early 1990s from Metairie, Louisiana, with a continuation of periodic broadcasts starting in 2009. The WRNO call letters are still in use by the New Orleans station WRNO-FM; both were founded and originally owned by Joseph Costello III. Dr Robert Mawire's Facebook page says: "Dr Robert Mawire, Founder and President of WRNO, a Worldwide Global Broadcasting Platform, Gerizim Technologies and Good News World, a humanitarian organization serving 25 countries, author of "Top Secrets Revealed." He is a speaker of extraordinary demand from both governments and private organizations"

Time/UTC	Day	kHz	kW	Target area
0200-0830	Daily	7505	50	North & Central America, Caribbean

As well as English, there may be programmes in Hindi, Arabic and Chinese (see website for details)

Further information about WRNO Worldwide can be found on their website at <http://wrnoworldwide.com/>

WTWW

Owner: Leap of Faith, Inc. (George McClintock, chairman)

Transmitter site: Lebanon, Tennessee.

WTWW is officially licensed to Leap of Faith, Inc. Until 2022, WTWW had carried an oldies/classic hits format operated by Ted Randall, who also appeared on several programs on the station, and his wife Holly on the 5085 kHz and 9940 kHz frequencies. WTWW went off-air 10 November 2022, with Randall taking the oldies format to WRMI; the station returned to the air sporadically in December solely carrying Scriptures for America with George McClintock operating the station. However, due to technical issues and George's health, the transmitter has been off-air on occasions.

When on air with two transmitters, the times for each frequency should/could be something like this, but the schedule may vary and be liable to interruptions due to on-going operational problems:

Schedule

1 transmitter 9930 kHz CST daytime and 5920 kHz CST night (changeover variable)

2 transmitter 9475 kHz CST daytime and 5085 kHz CST night (changeover variable)

The situation regarding the WTWW transmitters seems to change quite frequently. The best way to keep up to date is to check Glenn Hauser's reports from George McClintock at <http://www.worldofradio.com/Hauserlogs.html>

Further information about WTWW can be found on their website at <https://wtww.org/>

WWCR Shortwave

Owner: F.W. Robbert Broadcasting

Transmitter site: Nashville, Tennessee.

WWCR is a shortwave radio station located in Nashville, Tennessee. WWCR mainly leases out its three transmitters to religious organisations and speakers, as well as serving as the shortwave home of Genesis Communications Network's programmes. However, it does air a few hours of original programming per week.

WWCR-1

This transmitter which had operated on 3215, 6115 and 15825 kHz beaming 46° was permanently taken out of service by WWCR on 1 January 2025.

WWCR-2

Time/UTC	Days	kHz	kW	Target area
1300-1600	Daily	7490	100	Africa
1600-2100	Daily	12160	100	Africa
2100-2300	Daily	9350	100	Africa
2200-1300	Daily	5935	100	Africa

WWCR-3

Time/UTC	Days	kHz	kW	Target area

0100-0300	Tue-Sat	7520	100	North & Central America, Africa
0300-0500	Tue-Sat	5890	100	North & Central America, Africa

Note: schedule effective 2 November 2025.

The latest times and frequencies for WWCR can be found on their website at <https://www.wwcr.com/>

U.S. based Christian broadcasting organisations on shortwave

Adventist World Radio

Adventist World Radio (AWR) is the "radio mission arm" of the Seventh-day Adventist Church. It utilises AM, FM, shortwave, satellite, podcasting, and the Internet, broadcasting in 77 major language groups of the world with a potential coverage of 80% of the world's population. AWR's headquarters is in Silver Spring, Maryland with studios worldwide. As well as from its own station in Guam, AWR also uses facilities in Germany and Madagascar for shortwave broadcasts.

Follow the Bible Ministries

Follow The Bible Ministries is a non-profit, non-commercial Christian Broadcasting Ministry. Their website explains "Our purpose is to freely proclaim Bible truth to as many people as possible, primarily through the radio broadcast media and the Internet. Our Bible studies are designed to give encouragement and to help people grow spiritually ...". FTBM broadcast in both Arabic and English to audiences in Africa and the Arab World.

Time/UTC	Days	Language	kHz	Transmitter site	kW	Target area
1830-1900	Sun	Arabic	9585	Santa Maria di Galeria, Vatican	250	The Arab World
1900-1930	Sun	English	11660	Ascension Island	250	West Africa
			12010	Ascension Island	250	Southern Africa
2000-2030	Sun	Arabic	7315	Woofferton, UK	250	The Arab World
			7380	Woofferton, UK	250	The Arab World

The Overcomer Ministry (Brother Stair)

The Overcomer Ministry website explains "From a small farm in the state of South Carolina in the United States of America, Brother Stair trumpets the message of the soon return of the Lord Jesus Christ. It is from his radio room that the Last Day Prophet of God is reaching every nation of the world. One message he has preached faithfully for over forty years and that is ... "Jesus Christ is Coming in your Lifetime. This is the Last Generation, The Last Hour. Prepare to Meet your God!". Ralph Gordon Stair (3 May 1933-3 April 2021), also known as Brother R. G. Stair, or simply Brother Stair, was an American radio evangelist based in Walterboro, South Carolina. Despite his death, the ministry continues to buy airtime on several transmitters to broadcast programmes which include many past recordings of Brother Stair.

Over the years, The Overcomer Ministry had bought airtime on several shortwave stations, such as WBCQ, WINB, WRMI, WWCR and Spaceline Bulgaria and at times was also heard on Channel 292. However, The Overcomer Ministry announced in June 2025 that it would stop radio broadcasting on AM, FM and SW at the end of that month as it no longer be sustained with contributions dropping. It continues on the internet, and apparently on a low-power FM under construction in Walterboro.

At the time of editing, TOM has resumed broadcasting over the transmitters of Spaceline in Bulgaria.

Time/UTC	Days	Language	kHz	kW	Transmitter site
1500-1800	Daily	English	12085	100	Kostinbrod, Bulgaria

TWR Asia DRM transmissions (currently suspended)

According to Mike Sabin, Director of Broadcast Technical Operations at TWR Asia, DRM broadcasts from Tashkent have been suspended until at least mid-season. This is due to the transmitter failing again. (Atsuhiko Takezawa, 11 Nov 2025):

University Network

William Eugene Scott (14 August 1929-21 February 2005) was an American pastor and teacher who served for almost 50 years as an ordained minister and broadcaster in Los Angeles, California. In 1975, Scott began a series of broadcasts which resulted in the creation of the University Network. By 1983, this network was broadcasting his sermons 24 hours a day via satellite to the United States and Canada, as well as to much of Mexico and the Caribbean. By 1990, his network was available to 180 countries, and by 1992 his sermons were being broadcast in several languages on AM, FM and shortwave radio. Drawing from nearly 30 years of recorded programming, Scott's radio, satellite and television ministry continues to be broadcast, although on different stations and at different times. Melissa Scott, his second wife from August 2000 until his death, is the successor of his ministry and President of the University Network.

Texas Radio Shortwave

Texas Radio Shortwave is an independent producer of musical and topical shows, usually about Texas.

- Texas Radio Shortwave uses a version of The Yellow Rose of Texas as its Interval Signal/Signature Song.
- Texas Radio Shortwave verifies correct, detailed reception reports by electronic QSL. This includes reports from listeners using remote receivers (SDRs). TRSW email is texasradioshortwave@protonmail.com.
- Many TRSW programs are archived at www.mixcloud.com/texasradiosw
- Texas Radio Shortwave's Facebook page is www.facebook.com/texasradiosw
- Texas Radio Shortwave's Listeners' Group Facebook page is www.facebook.com/groups/580199276066655/

Programmes are broadcast on shortwave as follows:

to Europe and beyond on ShortwaveRadio in Winsen, Germany, are transmitted with 1 kW into crossed dipole antennas.

to Europe and beyond on Channel 292 in Rohrbach, Germany, are transmitted with 10 kW into a vertical antenna.

to North America and beyond on Channel 292 are transmitted with 10 kW into a 10.5 dB gain beam antenna.

World of Radio

World of Radio is a weekly half-hour DX programme produced and hosted by Glenn Hauser. Wikipedia explains "World of Radio debuted in 1980 on WUOT in Knoxville, Tennessee, moving to shortwave two years later. The half-hour program consists of Hauser reading news about radio around the world in a characteristic monotone. Although World of Radio focuses on shortwave news, it covers all aspects of broadcasting. Most items are contributed by listeners to the program or DX publications". WOR has many airings, the latest schedule can be found at <http://www.worldofradio.com/>
