Radio Stations in the United Kingdom

Key to Abbreviations in Notes column

#	In "Notes" column = transmitter not in service at time of publication (inactive or planned).
>>	In "Notes" column = change of station name or frequency expected.
\$\$	Power increase or coverage improvement approved for this station
CR	Community Radio station – not-for-profit services operating with 5-year licences.
kW	Transmitter power in kilowatts
LPAM	Low power AM stations operating with a long-term (5 year) licence on medium wave
R5	In "Notes" column = BBC Radio 5 Live is relayed overnight (approx 0100 to 0500/0600).
RSL	Restricted Service Licence (duration usually a maximum of 28 days).
WS	In "Notes" column = BBC World Service relayed overnight on R4 from 0100-0500(Mo-Fri) and 0100-0530 (SaSu) local time.

Note: Some of the high-power transmitters used by BBC Radio 5 and TalkSport are being run at significantly lower power than is officially registered. Powers have been updated where confirmed. Droitwich LW (198 kHz) nominally 500 kW is reportedly running at 250 or 150 kW as of Sept. 2025.
